After lunch I went  
for a walk on old trail  
between the two  
wharves where  
the water is still.

One bird was flying  
with its wings spread  
landing and taking  
its work. It was  
a pair of birds  
of a kind of purple  
to blue. It was  
possible to see  
the after-scrapping  
of the birds  
on the water.
